

SKYE ROPE ACCESS LTD

Skye Rope Access (SRA) would like to offer their Wire Rope Inspection services to your company or organisation.

GRI provide full NDT integrity inspection services on Wire Guy Ropes and using computer aided analysis can provide full detailed inspection reports on the condition of your guy lines.

GRI services are perfect for any application where wire guy ropes are being used in almost any circumstance and are ideal for use on (but not limited to);

- Ski Lift Cables
- Cranes
- Tower Guy Ropes
- Overhead Cables
- Elevator Lift Cables

Inspection may be carried out on ropes of varying diameter.

Inspection conforms to ASTM E1571-01 and EN12927-8 Inspection Standards.

SRA/GRI will provide full in-depth detailed reports on all findings.

Inspection is not affected by grease, paint or lubricating materials covering the wires, and is also not affected by rope speed during inspection.

Inspection equipment able to operate in extreme conditions making it very versatile in its applications

SRA/GRI provide this service at the most competitive price in the UK.
